## ABOUT ME

Computer Engineer specialized in Computing. I spend a lot of time trying to improve my programming skills by improving my code and looking for new challenges.

One of my favorite hobbies is to develop automations that allow me to save time in routine day to day tasks.

## INTERESTS

I am interested in the fields of Artificial Intelligence and Machine Learning as well as Computer Vision. Although I also like the development of games and applications mainly in web and mobile environments.

## REFERENCES

You can see some of my projects on the website mentioned in the summary of my data or by scanning the following QR code:

## WORK EXPERIENCE

**27/10/2014 - 15/03/2015**

Web developer • Internships • OpenLazarus

**05/02/2021 - Currently**

Systems Consultant • BMM Testlabs

## EDUCATION

**IES Sabadell, Sabadell, Barcelona**

- Certificate of Higher Education in Multiplatform application development.

**Autonomous University of Barcelona, Bellaterra, Cerdanyola del Vallès**

- Computer Science degree, specialized in Computation

## LANGUAGES

**Catalan**

- Native

**Spanish**

- Native

**English**

- Medium. I speak and write in English every day in my current job.

## APTITUDES

**Advanced knowledge in:**

- Python (also OpenCV), C, C++, Java, Java Android, HTML, CSS, JavaScript, SQL.

**Basic knowledge in:**

- PHP, JQuery, PostgreSQL, MongoDB and OpenGL.

## ACHIEVEMENTS

In my current job I have developed different automations for file management and folder navigation, as well as tools for digital signature extraction, file comparison and automatic report generation that have served to save time in tasks that we perform every day.
